Work Experience

May 2021-Aug 2021 **Visa Research**, *Research Intern*, Active Graph Learning.
Proposing a new query method method to incorporate active learning to graphs to mitigate the label scarcity challenge.

May 2020-Aug 2020 **ByteDance Inc**, *Research Intern*, Statically Analyzing critical C++ projects.
Investigating a couple of static analysis tools including CppCheck, Flawfinder, etc., on C++ projects. We use **Clang Static Analyzer** to adapt to company's unique compile framework and develop customized checkers to meet specific detection requirements and to reduce false positives in code testing.
